

Construction Types for HBCF cover

Secondary Dwellings (Granny Flats), Studios, Lofts, Garages V.1

icare HBCF is an insurer and where HBC cover is required it will determine whether to provide that cover. However, it is not the responsible authority for either determining whether cover is required for a particular project or whether work is 'residential building work' or constitutes a 'dwelling' for the purposes of the Home Building Act.

Construction code	Construction type	No. of policies/ certificates of insurance
